  - (v) formation of faeces large intestine
10. Write one similarity and one difference between the nutrition in amoeba and human beings.

absorbed into the blood.

27-04-21

Tuesday

Ques

Write one similarity and one difference between the nutrition in amoeba and human beings.

Ans

Similarity: The digestive juices in amoeba are secreted into food vacuole and in human beings the digestive juices are secreted in stomach and small intestine.

Then the juices convert complex food into simpler soluble and absorbable substances.

Difference: Amoeba captures the food with help of pseudopodia and engulf it. In human beings food is taken by the mouth.
