Q⁴ Name any two steps that government has taken to conserve plants and animals.

Ans: National park wildlife sanctuaries, biosphere reserves are made to protect our natural vegetation and wildlife.

Awareness programmes like social forestry and Vanamohata sava should be encouraged at the regional and community level.

Q⁵ Suggest three ways to conserve water

Ans: (a) Trees must be planted as vegetation cover slows down the surface run-off and replenish underground water.

(b) Sprinkling irrigation must be practised. It checks the water losses through seepage and evaporation.

(c) Water harvesting is another method to save surface run-off.
