Q :- In what way was the administration of the Company different from that of Indian rulers?

Ans (i) The Indian rulers had revenue and administrative division of their territories, but not much effective division called presidencies with a Governor. There were districts looked after by the collectors.

(ii) Both the revenue and Police systems were improved and reorganised by the British.

(iii) Under the Indian rulers, Judiciary was not much effective. ~~The Indian~~ The same Court was there to hear both the civil and Criminal cases, But the British established a proper Judiciary system. They established the Supreme Court. They established separate criminal and civil courts in each district.

..... Article
..... Demonstratives
..... Demonstratives
..... Distributives

(b) Iron nails are placed in Copper Sulphate Solution?

Write word equations of the reactions involved.

In this reaction, metallic iron is converted into ferrous ion (Fe^{2+}) and cupric ion (Cu^{2+}) is converted into metallic copper.

Word Equation:- Iron displaces copper in the salt solution; the iron dissolves turning solution, and metallic copper of a reddish color is released.

Materials: Metals
and non-metals.

Exercise Questions

Answer the following questions:-

3. Can you store lemon pickle in an aluminium utensil? Explain.

No, we cannot store lemon pickle in aluminium utensils, as metals react with acids to liberate hydrogen gas. The pickle (which is acidic in nature) can be spoiled.

4. What happens when

(a) Dilute sulphuric acid is poured on a copper plate?

When dilute sulphuric acid is poured on a copper plate, the metal does not react with sulphuric acid.
